Site: http://www.thehistorycenter.net/thc_events/2014/electricgolem.php

This special event will be held at The History Center in Tompkins County on Saturday, July 12, 2014, beginning at 8 p.m. and is free and open to the public.

The History Center in Tompkins County opened the exhibition Switched-On: The Birth of the Moog Synthesizer on Friday, May 2nd, telling the story of Bob Moog and the development of the groundbreaking electronic instruments bearing his name. As part of Switched-On's programming series, The History Center will host a concert by thereminist Shueh-li Ong and The Electric Golem.

Shueh-li Ong is a world-renown thereminist, and was a student of classical piano and electronic music at the Elder Conservatorium in Australia. What one notices on listening to Shueh-li, is her distinctive use of the ethereal Moog Theremin, exotic synth hooks, rustic tin-whistle, plucky guqin and rich vocal harmonies.

The Electric Golem are Trevor Pinch and James Spitznagel. Together they create modern psychedelic mindscapes thanks to Pinch's use of the Moog Prodigy, Minimoog and his homemade modular synth, and Spitznagel's battery of digital devices and his employment of the Moog iPad apps, Animoog and Filatron.

Other Details

- ★ Smoke-free event
- ★ Air Conditioned
- ★ Family Friendly
- ★ Handicap Accessible
- ★ Restrooms Available
